

Joe Johnson Equipment

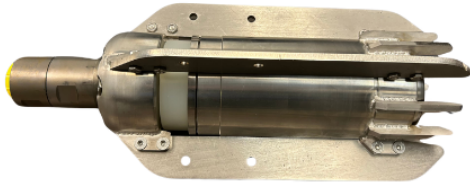

Subsidiary of Federal Signal Corporation

The Difference in Performance!

The Kleen Sight camera uses fluid mechanics to clean the pipe while it videos at the same time. The video is stored inside the nozzle/camera until ready to upload.

Camera videos can be uploaded using Wi-Fi to any smartphone, tablet, or computer.

Advantages:

- 1080P HD self leveling camera head. Clear video images.
- Internal 64GB memory. No SD card needed.
- Wi-Fi Hot Spot to download data. No exposed components.
- No need to clean lines first. Save time and money.
- 6 EYE LED lights . Illumination for all your needs.
- 6+ hours of video per charge. Full day video capability.
- Waterproof magnetic function switch. Protects camera from moisture damage.
- 1 Li-Ion Batteries and 110 VAC Charger.
- Replaceable Titanium Ceramic inserts.

No need to pre-clean your lines, this nozzle cleans as well as videos at the same time.
Wi-Fi connectivity downloads data at similar speed as a cable connection while ensuring the watertight integrity of the camera nozzle.
